

# NEWS of SCHOOLS and COLLEGES

## SCHOOL AND COLLEGE NEWS

(Continued from Page Four.)

Now in the very best of condition for the accommodation of the pupils.

In addition to the usual thorough courses in the English branches, Latin, the modern languages and mathematics, a course in domestic science has been added for this year, and the best advantages Omaha affords for vocal and instrumental music. Also a kindergarten department has been added for children from the age of 4 to 8.

### GRINNELL COLLEGE NOTES.

Three Dormitories for Girls and Central Dining Hall Added.

Grinnell college on the 20th instant awarded the contract to Bailey & Marsh of Minneapolis for the erection of three girls' dormitories during the next year, the aggregate cost of these buildings to be \$100,000. The central building will provide a large dining room, kitchen and reception hall. This will make it possible to care for 300 girls. Work will begin at once.

Dr. Herbert Francis Evans, a graduate of Leland Stanford university and of the University of Chicago, and until recently in the employ of the Baptist Publishing society as the author of the Keystone graded Sunday school lessons, has been appointed head of the department of biblical literature and religious education at Grinnell college. His work with the college will begin in the fall of 1914. Dr. Evans will give courses in the principles and methods of religious education and the practical problems of Sunday school administration and teaching. For three years following his graduate work in the University of Chicago Dr. Evans was director of religious education in the Second Baptist church in St. Louis. He is the author of "The Sunday School Man's Equipment" and of "Children's Reading Habits and Character Development."

Dr. J. P. Sprague of Chicago has been appointed professor of physical education and hygiene at Grinnell college. Dr. Sprague is a graduate of Bates college and of Northwestern Medical college. Since 1905 he has been director of athletics and physical education at the Chicago Latin school. He is a member of the Chicago Medical society, the Illinois Medical and the American Medical associations, and a member of the Association of Physical Education. Grinnell college has taken a long step ahead in securing a man of Dr. Sprague's type as head of this department of physical education. Every student who enters the college will be given a medical and physical examination and during the college year he will be directed by this expert to the point which will develop him best physically. Dr. Sprague is an experienced athletic coach and gymnasium instructor, and under his direction every student will receive individual attention for his particular needs.

### BUSINESS SCHOOL OF MERIT.

Kansas Wesleyan Business College Right to the Front.

One of the really great schools of the West is the Kansas Wesleyan Business college at Salina, Kan. This business college is a department of the Kansas Wesleyan university. It occupies its own building, three stories in height and 500,000 feet in dimension in the business part of the city. The entire building of twenty rooms is devoted to the use of the college. From eighteen to twenty-five instructors are employed, and about 1,000 students are enrolled annually.

The school was purchased about a year ago from Dr. Roach, who had directed its activities for more than twenty years, by Prof. L. L. Tucker, who has been in charge of some of the most important schools in the east, and is an educator with a quarter of a century of successful work behind him.

The school has been placed upon a new basis by the new curriculum. New courses of study have been introduced. The latest and best text books have been adopted for every subject, and the equipment is now first-class in every department. The motto of the school, "We place character building above business building," is indicative of the high standard which this school upholds. It draws its patronage from half a dozen states, and it places its graduates in positions all over the western country.

A new departure in business school work is the establishment in the Kansas Wesleyan Business college of a free winter chautauqua for the students and the community in which the school is situated. Such men as Governor Hodges of Kansas, State Bank Commissioner Sawyer of Topeka, C. M. Haeger, dean of the Kansas School of Journalism; Mr. Cottrell of Chicago, agricultural commissioner for the Rock Island lines; Arthur Capper of Topeka, publisher; Elbert Hubbard, the popular author and speaker; Mr. Borman, editor of the Kansas Farmer, and a number of the lecturers connected with the college extension department of the Kansas State Agricultural college will appear before the students of the college and the public during the fall and winter.

### TRINITY COLLEGE PLANS

Popular School at Washington Offers Its Advantages.

Trinity college, Washington, D. C., a Catholic institution for the higher education of women, offers its advantages to those who seek for solidity of training in all its branches. The courses offered to graduate and undergraduate students are planned according to the best standards of American colleges. Trinity is ranked among the first by the United States commissioner of education. It is affiliated to the Catholic University of America and has professors from that institution in many of its departments. The college is beautifully situated, with a campus of fifty acres, and has many natural advantages. It has no preparatory department. The school is under the direction of the Sisters of Notre Dame of Namur.

### HOLYOKE-DOX SCHOOL

Place for the Little Boys and Girls Opens Its Fourth Year.

The Holyoke-Dox School for Boys and Girls is entering upon its fourth year in September.

The school offers instruction in kindergarten and the first four grades. In addition to the regular work classes are carried in French, music, sewing and folk dancing.

This school keeps in line with the public school grades and also with the requirements suggested by the Private School Teachers' association of Boston. Children are received in the kindergarten at 4 years and even younger where the physical and mental development make it desirable.

### WATER BOARD NONPOLITICAL

What Engineer Arend Says Ought to Be Done at Once.

### HIS PLEDGES TO THE PEOPLE

Candidate for Place on the Board Makes a Strong Statement and Submits His Platform to the Public.

"The proper operation of a municipal water works is not a political proposition and history has not yet recorded an efficient engineer who was also a politician, still Omaha should have at least one practical man on its water board," says Albert C. Arend, who has filed as a candidate for the board. He continued: "I understand that all precedents are shattered when a candidate for election on this board submits a platform or has any satisfactory reason for wishing to serve, but hope that the public's sense will be accessible and that they will respond accordingly—especially because my twenty-five years' experience in designing and operating hydraulic and industrial plants would indicate the reasonable assurance that these intentions and reasons are practical, and within my capacity, assuming only reasonable cooperation. And also because the opportunities for additional improvements are ample for any one who may be well posted in such affairs."

**Mr. Arend's Platform.**

1. To advance the prestige and industrial development of Omaha and suburbs by all such extensions and services which may be essential to compare favorably with other neighboring cities.
2. To have the rights of the individual and the public recognized, and to have no arbitrary rules or decisions enforced, which at times are an imposition, even though they may mean a little more economical operation or expenditures for the plant.
3. To have all reservoirs and other features designed and located in such a manner as to conform with the most ethical and efficient requirements, without interfering with existing and adjacent improvements.
4. To have the present rates reduced to 15 cents per 100 cubic feet, or 20 cents per thousand gallons, at once, and then any one can figure their bill.
5. To maintain the rates at actual cost plus all the while and not to build a surplus to permit inequitable or spectacular reductions at future dates.
6. To prevent all employees from participating in municipal politics, as expressly intended by the law, and to require them all to render full service for their salaries.
7. To promote justice and efficiency in all the affairs which are ever connected with the Metropolitan Water district.

**A Consumptive Cough.**

### SOKOLS AT DEN MONDAY EVE

Visiting Athletes and Rotarians to Have Joint Session.

### "DAD" EXTENDS INVITATION

Samson's Right Hand Bower Makes Speech to Bohemian Athletes in Behalf of King's Wishes to Visit Him.

Rotary club night and Tel Jed Sokol night is to be celebrated at Ak-Sar-Ben Den Monday evening. The Tel Jed Sokol athletes that have been competing for gymnastic honors on the field in Omaha in the nation-wide contests for the last week are to stay over until after Monday evening to enjoy an evening at the Den. Ak-Sar-Ben Secretary J. D. Weaver personally gave them the invitation in a little speech at Turner hall a few nights ago, and they accepted it. There are something like 1,000 visiting Bohemians in the city for the event, and most of these, barring ladies, of course, will be at the Den for the initiation. Samson is looking for the biggest and huskiest of Sokol athletes for the tango. It takes a husky man to stand the pace set by the tango queen, and Samson declares none of the athletes can be too strong for the husky lady.

Then the Rotary clubs from a half dozen cities will be here for the evening. Long ago this night was set aside as Rotary club night at the Den. Long ago arrangements were made to have all the local members of the Rotary club present. Long ago the local members made arrangements to have several hundred rotary members from other cities here for the evening. They promise there will be something like 132 Omaha members and some 200 or 300 members from Sioux City, Lincoln, St. Joseph, Kansas City and St. Louis.

### Pass Four Hundred Mark.

The hustling team composed of Potter, Meyers and Rosicky has passed the 400 mark in the race for new members. This team has been in the lead from the very first day the hustling committee was divided into teams and put to work. They

### LUTHERAN LADIES' SEMINARY

A College for Girls  
RED WING, MINN.

For information, visit the school, talk to our patrons and address: R. D. MATWAD, Superintendent, Lincoln, Nebraska.

have been hustling from that day to this and have made a remarkably good record. There are other teams that have made excellent records, but this team worked in a squad several days when the campaign first opened, and then and there established such a lead that the other teams have been unable to overcome it since.

### Homecoming Invitations.

"Dad" Weaver, secretary of Ak-Sar-Ben, has sent out over 5,000 invitations to persons who were former residents of Omaha asking them to be in Omaha during the Ak-Sar-Ben festivities for the "home coming week." The invitations have but recently gone out. The names of former Omahans have been collected for months by Ak-Sar-Ben. Lodge records were searched, every available record that could yield any information on the subject was looked over for names. It was in this manner that the remarkable list of over 5,000 was made up. And Secretary Weaver is still looking for more names. Although the first invitations have gone out he is determined to send out more as he gets further lists of names.

### The School For Your Daughter

### St. Mary's College and Academy

Notre Dame, St. Joseph County, Ind.

(Two hours from Chicago—One mile from Notre Dame University.)

Wisdom should rule in the selection of a school for your daughter. Collegiate instruction should bring more than mere knowledge of words, facts and forms. St. Mary's ingrains in the pupil, morality, refinement, self-reliance, with practical knowledge of the arts, music and sciences.

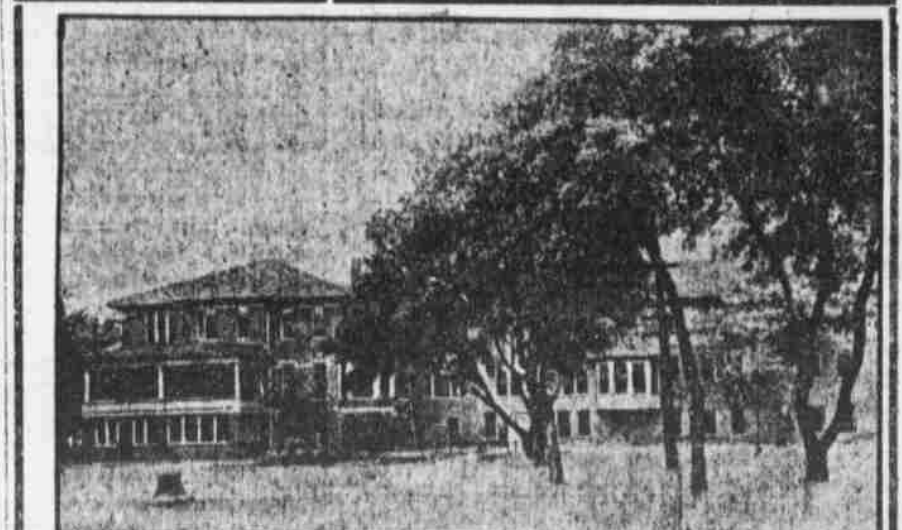

Its Conservatory of Music, its Household Arts Course and its system of teaching the higher classics and languages have proved their value and efficiency through results of 55 years of experience.

Moral atmosphere of the college builds firmness of character. Added to this feature are ideal scenic conditions which spur pupils to athletic exercises which relieve the tension of studies and with St. Mary's course of instruction the pupil is equipped rapidly for leadership in any circle without trenching on mental or physical strength.

Mary's is cast upon the bluff overlooking the beautiful St. Joseph River, on its own grounds of 700 acres, painted by Nature's own artistic hand. Four courses are provided—Collegiate, Academic, Preparatory and primary, each specially designed to produce not only practical knowledge, but that solid so essential to the rounding up of the young woman's physical, moral and mental education. Pupils' interest in the institution is assured and their health promoted by abundant means for exercising on the Archery and Tennis Courts or Golf Links, at Boating, Skating in Winter, Walking Jumps and other outdoor recreations and by a well-equipped gymnasium and facilities for amateur theatre, dancing, etc., a carefully selected Library, Museum and a complete Laboratory and other attractions.

Parents and guardians who appreciate all these influences should write for illustrated catalogue and full information.

The Directress, Box 162 Notre Dame (St. Joseph Co.,) Ind. Conducted by the Sisters of the Holy Cross.
